Industrials the Disturbing Factor in Friday's Market-Railroad Stocks Affected by the Situation. NEW YORK, Oct. 4.—The eccentricities | 21/2@3% per cent.; last loan, 3 per cent.; rul-

day. Yesterday's list of semi-demoralized bills at \$4.8516@4.85% for demand and at stocks were increased to-day by a number which were not tested yesterday during Clearings, \$204,825,553; balances, \$10,378,048. Common to fair light weights ..... 6.25@6.45 Common to good pigs .............. 4.0006.25; the progress of liquidation. The low priced nondividend-paying railroad stocks \$4.86%. New York exchange, 20c discount were also in marked disfavor and suffered severe declines on selling out of holdings. But the still more potent factor toward reaction was the renewed pressure to liquidate in Amalgamated Copper, which carried the price down an extreme 2% to 86%, which is the lowest price on the present movement, even allowing for the 11/2 per cent. interest which has come off. There was a suggestive break in the price of spot copper again in London this morning which served to indicate that the present fortunes of Amalgamated Copper are more or less intimately connected with the maintenance of the price of raw copper. An important factor in the weakness, both of that stock and of other industrials, however, was the scrutiny by the banks of the collateral in their loans and the disposition to call loans in order to limit collateral. No special discrimination was was reflected in to-day's acute weakness | per cent. of the stock. The same was true of the Consolidated Tobacco 4 per cent. bonds, which fell an extreme 2 points. Other stocks notably affected were: General Electric, 5%; Diamond Match, 5; United States Express, 4%; Consolidated Gas, 4; National Biscuit preferred, 3; Sugar, 2%, and Smelting, 2%. In the low-priced railroad stocks Lake Erie & Western lost 51/4. 4. Minnesota, St. Paul & Sault Ste. Marie preferred 4%, Evansville & Terre Haute and Kanawha & Michigan 3, and the Toledo, St. Louis & Western stocks 21/4 each. Some of the severest losers yesterday showed a rallying tendency before the general market turned upward and in the late recovery there were some net gains of a point and more achieved. National Salt recovered 11 points of yesterday's 14% loss on three transactions. The late rally seemed to be due entirely to covering by shorts and was made in spite of the promise of only a moderately favorable bank statement. The interior movement of currency during the week has again been very heavy, so that the gain on account of government bond purchases and Australan gold has been almost offset. It is hoped that the inquidation in the stock Hogs-Receipts, 600; shipments, 500. There | market will be reflected in a loan contraction. The stock market closed quite active and strong at the recovery.
